PROFESSIONAL SUMMARY

Skilled full-stack developer experienced in React, Redux, and Python. Proficient in delivering high-quality web solutions, managing project timelines, and collaborating with diverse teams. Seeking opportunities to contribute to innovative projects in a dynamic environment.

PROJECTS

YouTut (React, Redux, Node.js, Python, Flask, AWS S3, CSS3, SQLite, SQLAlchemy, Docker, Heroku)

[Live Site](#) | [Github](#)

- Full-stack YouTube clone for online tutorials, featuring video streaming, uploading, and commenting.
- Utilized AWS S3 for user video and image uploads and storage.
- Implemented shuffling algorithm to enhance user engagement.
- Designed custom error handling for video uploads, ensuring format and size compatibility.

Instacrumbz (React, Redux, Python, Flask, HTML5, CSS, SQLite, SQLAlchemy, Docker, Heroku)

[Live Site](#) | [Github](#)

- Full-stack Instagram clone allowing users to upload posts, photos, comments, and like content.
- Completed project in one week using Agile frameworks in a small group.
- Managed seeding and deployment via Docker container on Heroku.
- Implemented Kanban system to improve organization, test-driven development, and accountability.

Mic-Lockr (React, Redux, Express, Sequelize, HTML, CSS, PostgreSQL, Node.js, Heroku)

[Live Site](#) | [Github](#)

- Full-stack Flickr clone for sharing and commenting on microphone images.
- Utilized AWS S3 for user image uploads.
- Enabled users to perform CRUD operations on images and comments with fetch calls and Redux for state management.

SKILLS

React, Redux, JavaScript (ES6), TypeScript, Python, Flask, PostgreSQL, SQLite, Git, CSS3, Docker, Heroku, Node.js, AWS, Playwright

EXPERIENCE

Freelance Web Developer Remote

December 2022 - Present

- Developed responsive websites using various web technologies based on client requirements.
- Collaborated with clients to translate needs and goals into user-friendly web solutions.
- Managed project timelines and provided regular updates, ensuring high-quality deliverables.
